Portfolio: https://sabaloo.netlify.app/

PROFESSIONAL SUMMARY

Software Developer with 12+ years of experience developing, maintaining, and improving business applications across desktop, web, and mobile environments. Core experience includes C#, ASP.NET, ASP.NET Core, Microsoft SQL Server, MySQL, Dapper, and Crystal Reports, with additional experience in Angular, TypeScript, JavaScript, Ionic, Node.js, and Express.js. Experienced in requirements analysis, technical specifications, system integration, troubleshooting, application maintenance, and mentoring junior developers.

PROFESSIONAL EXPERIENCE

System Analyst & CTO | Trion Technologies

Mandalay, Myanmar | May 2022 – April 2026

- Gathered and analyzed business requirements, translating them into functional and technical specifications.
- Coordinated software integration to streamline data exchange and support efficient business workflows.
- Supported business application delivery and system enhancement initiatives.

Senior Software Developer | Trion Technologies

Mandalay, Myanmar | May 2015 – April 2022

- Built and refined software applications to meet client and business requirements.
- Evaluated technologies to support application development and ongoing support activities.
- Mentored 6+ junior developers, promoting clean coding practices and maintainable software.

Junior Software Developer | Trion Technologies

Mandalay, Myanmar | November 2011 – April 2015

- Diagnosed and resolved software defects to improve application reliability and reduce recurring issues.

Freelance Software Developer | Independent client projects

Singapore | 2019 – 2020

- Delivered 1–2 freelance projects, including a Mitsubishi Survey Truck reporting solution using ASP.NET Razor, Microsoft SQL Server, and Crystal Reports to support reporting and data-entry requirements.

TECHNICAL SKILLS

Programming: C#, JavaScript, TypeScript

.NET & Microsoft: ASP.NET, ASP.NET Core, ASP.NET Razor, Blazor, WPF

Databases & Data Access: Microsoft SQL Server, MySQL, PostgreSQL, Dapper, Entity Framework Core

Frontend & Mobile: Angular, Ionic

Backend & APIs: Node.js, Express.js, REST/API integration, AI API integration

Reporting & Developer Tools: Crystal Reports (SAP), Visual Studio, Visual Studio Code, Git, GitHub

Software Delivery: Requirements analysis, functional/technical specifications, system integration, debugging, application maintenance, team mentoring

ADDITIONAL INFORMATION

Languages: Burmese (Native), English | **Availability**: Immediately | **Expected salary**: (negotiable)

EDUCATION

- Bachelor of Computer Science (Hons:), University of Computer Studies, Myanmar | **2006–2011**
- Diploma in English, Mandalay University of Foreign Languages, Myanmar | **2011-2011**

SELECTED PROJECTS

AI Interview Assistant Full-stack personal project | 2026

Technology: Angular, TypeScript, Node.js, Express.js, PostgreSQL, JWT, Open AI/Open Router APIs, Netlify, Render

- Launched an AI-powered interview practice application featuring an Angular frontend and Node.js/Express backend.
- Established JWT authentication, chat history management, and CRUD operations.
- Connected AI APIs and published the frontend through Netlify and the backend through Render.

GitHub: https://github.com/BaeEu/ai-interview-assistant.git

Live: https://ai-interview-assistant-app.netlify.app/

My Clinic Web/mobile application

Technology: ASP.NET (Blazor), C#, Dapper, TypeScript, Microsoft SQL Server

- Analyzed requirements and coordinated solution implementation as System Analyst.
- Streamlined data access using C# and Dapper, while adding frontend interactivity with TypeScript.

Hospital Management System (HMS) Windows application

Technology: C#, Visual Studio, Microsoft SQL Server, Crystal Reports

- Assisted with hospital management software enhancements and analyzed system requirements.

Lottery Application Web/mobile application

Technology: PHP, Ionic, Node.js, XAMPP, TypeScript

- Participated in system analysis, application delivery, and deployment across web and mobile platforms.
- Enhanced backend functionality using Node.js.

Mitsubishi Survey Truck Report Freelance web project

Technology: ASP.NET Razor, Microsoft SQL Server, Crystal Reports

- Built reporting and data-entry features to fulfill project requirements.

Attendance and Payroll Management Windows application

Technology: C#, Microsoft SQL Server, Crystal Reports

- Tailored payroll functionality to align with client-specific requirements.
